

A Breakthrough in Perforated Stretch Films

When downgauging meets performance

New AirOFilm® Stretch Lite+ is a unique stretchable breathable stretch film for either fully automatic or semi-automatic wrapping machines with power pre-stretching systems of 150% and 200%.

AirOFilm® Stretch Lite+ is a lightweight film delivering the right balance between downgauging and excellent performance.

AirOfilm® **Stretch Lite+ 150** and AirOFilm® **Stretch Lite+ 200** are suitable for

 **Hot** palletised goods like baked snacks, pasteurized products, breakfast cereals, pharmaceutical goods, pet foods, etc.

 **Chilled or frozen** products that require fast cooling after palletisation, such as meat, fish, frozen snacks, etc.

Film width improvement on pallet

Up to 50%

Reduced Neck-in effect

Improved Aeration

Enlarged openings

Product unique key features

Wider film on pallet ✓ MORE BENEFITS

- Improved load-to-pallet bond security
- Improved wrap pattern

Sustainability & Savings

- Wrapping configuration optimisation opportunities
- Up to 20% less material used

ORO™ CONCEPT

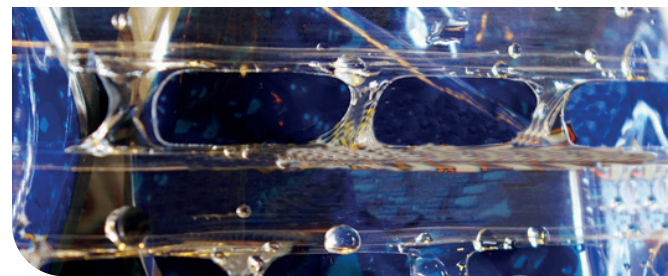

- Less plastic waste
- Lower CO₂ emissions
- Less plastic taxes
- Less energy consumption
- Less maintenance & warehouse space
- Downtime reduction
- Increased productivity
- Total Savings

Unique film structure & design

- Enlarged openings & maximum aeration
- Unique clarity & pallet appearance

Excellent film & pallet performance

- Superior film strength & load containment forces
- Elimination of condensation or moisture
