

Plug-n-Play

Efficiency made Easy

100%
RECYCLABLE

WHAT IS Plug-n-Play

Plug-n-Play is a novel **Trouble-Free** stretch film with reinforcement elements for every use that makes the whole **wrapping process effortless!**

In other words:

“Plug” the film on the machine like your current power solution film and “Play” with the settings. You will gain the possibility to reduce tremendously the plastic consumption and experience immediate cost-savings.

HOW IT OPERATES

Plug-n-Play operates with both **semi and fully automatic wrapping machines** that incorporate a pre-stretch unit.

WHAT TO CHOOSE

Plug-n-Play SL

Super Light

- 2400 m/roll
- Pre-stretch up to 240% recommended up to 220%
- Usually replaces a film $\leq 17\mu\text{m}$
- For Super Light applications

Plug-n-Play L

Light

- 2100 m/roll
- Pre-stretch up to 250% recommended up to 230%
- Usually replaces a film up to $20\mu\text{m}$
- For Light applications

Plug-n-Play GP

General Purpose

- 1800 m/roll
- Pre-stretch up to 260% recommended up to 240%
- Usually replaces a film up to $23\mu\text{m}$
- For General Purpose applications

Plug-n-Play HD

High Demanding

- 1600 m/roll
- Pre-stretch up to 270% recommended up to 250%
- Usually replaces a film $>23\mu\text{m}$
- For High Demanding applications

Plug-n-Play

Efficiency made Easy

WHY TO CHOOSE

Functional

Fast replacement of power and superpower films

Better holding force compared to conventional stretch film (thanks to its fibers)

Immediate advantages vs competition

User friendly

Optimal results with minimum adjustments on the wrapping machine

Zero breaks during wrapping process

Thanks to its unique-design the film-applications can be easily optimized

Sustainable

50% less plastic material used

1 Kg Core weight

Reduced waste

Fewer CO₂ emissions
